PROFESSOR ALEX. C. BARRY'S

TRICOPHEROUS,

or Medicated Compound,

FOR beautifying, improving, and preserving the Hair, curing cutaneous diseases, burns, sunburns and all irritations of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement; but as the thousands who purchase, use and approve of it, have probably no idea of the enormous extent of the business done by Professor Barry, he gives herewith a plain statement of facts, derived from his books and with them readers his earnest and hearty thanks to his innumerable patrons.

Professor Barry's accounting of sales for the year 1852 show that during that year about 910,000 bottles of his Tricopherous were disposed of in that the sales product of this immense sale was nearly $100,000.

This plain unvarnished tale, is a better comment on the value of the article than any thing in support it could say. If it were not positive in its effect upon the hair—if it were not invaluable as a household remedy for cuts, bruises, burns, skin diseases, &c—it would not, of course be so universally in demand. The wealthy portion of the public would pay it at any price but Professor Barry has reduced it to a figure so low that the poorest can avail themselves of its benefits.

Sold in large bottles (price 25 cents) at wholesale and retail at the manufactory and depot 137 Broadway, New York and by the principal druggists and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c.

TESTIMONIALS,

The following certificate from Dr John C Warren, of Boston, was given 17 years since, but will last forever

Boston, Jan 5, 853

Having had occasion to observe the skillful manner in which Mr James Frederick Foster, has shown himself competent to accomplishing the fitting of Trusses. We have employed him for one of our twenty years and can therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business, and the large number of individuals whom he has relieved in a variety of cases rendering, in our opinion, Mr Foster peculiarly fitted for the manufacture of this article. His father Dea Gideon Foster, of Charlestown was master of the Poor house in that town for a period of twenty four years during which period Mr Foster assisted his father in the opportunity, and thus in application of Trusses to a great variety of claims, with great success, some of which were of a very peculiar and difficult nature.

It is well known to all who have occasion to wear a Truss, that its great excellence consists in its adaptation to the body, at the same time retaining the patient. Any ordinary machine may hinder a Truss but none but a skilful practitioner can apply it to such a manner as effectually, and oftentimes radically cure the complaint.

Our experience has convinced us that Mr Foster has thoroughly mastered this knowledge. The certificates of Dr J C Warren, and other eminent gentlemen, which he has shown us, fully sustain the opinion we express.

SINGER'S PATENT

Straight Needle Perpendicular Action

SEWING MACHINE,

Secured by Two Distinct Patents!

THESE extraordinary Machines have had numerous diplomas and medals awarded to them, as the best sewing machines ever devised. They now form one of the most attractive features of the Great Exhibition of the Crystal Palace in New York.

The proprietors having perfected their great manufactory in New York are now able to produce the Machines at a cheaper rate and have determined to give the benefit to the public by reducing the price $5. Hereafter these unrivalled Machines will be sold at either of our regular offices for

$100 Cash, without deduction or discount.

As the advertisements and those Machines for all the work of the Clothier, Tailor, Shoe Manufacturer, Saddler, Carriage Trimmer, Cap Maker and Corset Maker it is unnecessary to speak—The character of the machines for these branches of business is established and they are known and admitted to be the most perfect instruments for the purpose ever devised. The clear profit on each machine is from $200 to $1000 a year depending on the fineness and difficulty of the work done—We desire to call the particular attention of Shirt and other manufacturers to our machines of stitching linen and cotton goods. We can satisfy any person interested that for other machine has ever come or can do this kind of stitching perfectly. The price of the machine includes the necessary articles for using. When ordered they are packed complete for immediate use, and full printed directions for using are furnished.

Either of the Known companies or merchants visiting the places where our offices are, located afford a convenient medium for purchasing machines.

McFarland's BURGLAR and FIRE PROOF SAFES!

A FEW of the celebrated Safes have arrived from New York, and those who are in want of a superior article which has been severely tested for the last ten years in every country are invited to call and examine them. Read what the *New York Press* say of them in regard to the late great fire in New York. Further comment is unnecessary.

From the Journal of Commerce, of August 27th]

"Messrs B F Pond & Hitchcock of 56 Water street, oil merchants, informs us that their Safe, (one of McFarland's Fire Proof) at the great fire of the Pearl st House although exposed to fourteen hours to the combined effects of burning Rosin and other Oils and a broken Gas Pipe directly underneath, preserved their books and papers in the most perfect order. They were not injured in the least manner."

[From the New York Evening Mirror, of Aug 27th]

McFARLAND'S SAFES AT THE GREAT FIRE OF THE PEARL STREET HOUSE.—Looking at the ruins of this great fire yesterday we noticed in Water street several of McFarland's Safes, which were being taken out of the ruins, the insides of which were all in good order. One of them in particular deserves especial notice. It belonged to Messrs Pond and Hitchcock, oil merchants, No 56 Water street, and was exposed to the very hottest part of the fire, being covered with burning oil and spirits and directly under a broken gas pipe from which the gas was escaping in large quantities, and throwing an intense heat. It remained in the fiery furnace for thirteen hours, and we are informed by Mr Pond that the interior, which opened its books and papers were found to be in a perfect state of preservation not even being scorched and quickly bearing the smell of fire thus proving itself a perfect salamander. Every merchant should examine them and convince himself of their fire proof qualities, as some half dozen others of the same make were in the fire and every one preserved its contents from the east damage.

From the New York Tribune of August 30th]

The reputation of McFarland's celebrated Fire Proof Safes has lost nothing at the last great fire, as usual preserving their contents unimpaired, and saving many thousands of dollars for their owners. These safes have built for themselves a colossal reputation, and are adding to it at every fire. McFarland's motto is "Excelsior."

[From the New York Herald of Aug 30th]

At 6 o'clock yesterday morning the entire city of McFarland's Fire Proof Safes over all others as a protection against fire in the Safe which can now be seen at the ruins of the great fire on Tuesday night at the Pearl st House, where it was exposed in the oil store of Messrs Pond & Hitchcock No 56 Water st, for thirteen hours to the combined effects of burning oil and spirits. Books and papers inside were not even scorched.

☞ These Safes are for sale at No 49 West Market Square, Bangor.

PATENT SELF HEATING

SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century relieving and facilitating the labor of men by machinery and other modern implements, but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron* which will relieve them, in a very great degree, from the excessive and fatiguing labor of *Ironing* besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor and despatch, one cent's worth of dry charcoal supposed to be a whole day's constant ironing. Hard wood coal from the store will answer the same purpose. It can be used in any room or in the open air. Hatters and Tailors' Irons are constructed upon the same principle and possess equal superiority.

MONDAY, OCT. 17. 1853

☞ The whip of the central government at Washington begins to be very freely flourished, in the faces of the members elect of the legislature, of the presses that supported Anson P. Morrill for Governor, and of the Jeffersonians in this city, for not supporting Mr. Pilsbury in "The Administration at Washington," the Belfast Journal declares, "will repudiate all schemes to destroy the local democracy, even though it be done under professed friendship to the administration." That is, unless Mr. Pilsbury is elected Governor, and the Wild cat candidate for U. S. Senator be elected, the administration at Washington will be down upon the Morrill Maine Law men like a thousand of brick! Nonsense. The President has about as much as he can manage with central affairs, without undertaking to hold the reins and guide political affairs in Maine, or throw himself into the arms of Mr. Pilsbury and his friends. The probability is that his power is invoked just now in the hope of frightening the friends of the Maine Law into the support of Mr. Pilsbury for Governor, and the candidate of his wild cat friends for U. S. Senator

The Japan Expedition.

A visit of three Russian vessels of war to the Chinese seas, and the statement that they were intended to watch the United States expedition to Japan, has excited considerable speculation in various quarters. It has been said that the object of the squadron was to take advantage of any opening that the Americans might effect, and be ready to propose and conclude treaties of amity and commerce with the isolated Japanese. The London Herald of a late date says the Russian squadron is probably bound to the mouth of the Segallien river. Sometime since, finding himself troubled with the Tartars dwelling there, the then Russian Emperor ceded to China that tract of country north of Pekin, through which the Segalien river winds its way. It is a very fine country, inhabited by a race, of independent habits, and it is tho't the Czar wishes to get this country once more into his possession. The latest rumor in regard to the purposes and aims of the Russian squadron in the Chinese seas, is the following from the *Weser Gazette*, of Amsterdam.

"It is stated that the Russian Government has resolved to resist the attempts of the Americans against Japan, and that the Russian squadron which recently sailed for those seas was intended for that purpose. The Russian Government has sent for Professor Siebold, who resides on the bank of the Rhine, to obtain from him every information relative to Japan, and on the best means to be adopted to defeat the attempts of the United States. M. Siebold is well acquainted with Japan, having resided there many years. The Dutch Government is said to be pleased with this determination of the Cabinet of St. Petersburg, as the Americans also threaten the Dutch Archipelago, and as, moreover, the English press expresses themselves in favor of the Americans, and have lately begun to throw discredit on the Dutch rule in the East Indies."

Death of Tristram Burges.

Tristram Burges of Rhode Island, died Oct. 13th, at Watchemoket farm, in Providence, after an illness of a week's duration, at the ripe age of 84 years, in the triumphs of christian faith and hope.

Mr. Burges, as we learn from the Providence Journal, was born on the 26th of February, 1770. In 1796 he graduated at Brown University, with the first honors of the class. He studied law with Judge Barnes, and was admitted to the bar in 1799. In 180 he married the daughter of Welcome Arnold then one of the most distinguished merchants of Providence. They had seven children, of whom one only now survives. In 1811 he was elected a member of the General Assembly from the town of Providence, in 1812 he was chosen Chief Justice of the Supreme Court, which station, however, he retained but a year. Soon after he was appointed Professor of Oratory and Belles Letters, in Brown University. In 1825 he became a member of the House of Representatives of the United States, where his first speech established his reputation as an orator and a Statesman, and placed him in the foremost rank of the public men of the day As an advocate, Mr. Burges was able and effective. Throughout life, his character and course were such as ever to command the love of his friends, and the respect and esteem of his opponents.

☞ Hon. Jefferson Davis, the Secretary of War has written a letter in support of the policy of the administration, in the recognition of all Democrats who come upon the democratic platform of 1852. He does not refuse the hand of fellowship to those who were formerly ranked as recusolers, but says—"I am willing in these, as in other cases, to drop the inquiry into bygone opinions and associations, to adhere to the compact of 1852, to oppose disorganization, to resist agitation, and to promote the harmony of the Democratic party as the best means of securing peace among the States, and perpetuity of the Union.

☞ The Rockland Gazette states that Mr. Joseph D. Thurston, employed in the machine shop in that town, was sick and escaped from his bed in his shirt and proceeded to the work shop where he has worked, and from thence to a subterranean passage crossing the main street, in the vicinity, where his lifeless body was found two days afterwards. Diligent search had been made for him, in which the whole community joined, but without effect, until two days had passed. Mr. Thurston was a man of good habits and character. His parents lived in Union, where his remains were buried by his brethren, the Sons of Temperance.

☞ Walter Sutherland, at the Medows, in Hallowell, bit off the nose of Alvin McLean, on Tuesday, week, and after being arrested, cut his own throat, but not so badly but that he will recover.

☞ The earth was a little frozen on Saturday morning and until that time most of the foliage and flowers in gardens in this city were bright as ever.

Godey's Lady's Book, November 1853.

This elegant monthly is conducted with signal ability and good taste, and with a generous outlay of capital which only enterprise assured of success by experience would dare attempt. The skill, intellectual and artistic, so happily blended here, very justly make this periodical a favorite in all refined circles. The number before us is a rich one, and the next and closing number is to form a climax of the year by giving a rich engraving of "Christ Healing the Sick." Godey redeems his pledges, and every year makes his work richer than the preceding. Single numbers of this work may be purchased at the bookstores.

☞ The Rockland Advertiser has a muddy and ridiculous article on the subject of the purchase of the Massachusetts lands, in which it bears false witness against its neighbors. The conductor of that paper, said to be a very harmless sort of man, has probably allowed himself to be deceived by some person destitute of truth or honor, and admitted his detractions to nestle in the editorial columns. We shall not encumber our columns with replies to the absurdities of the Advertiser.

☞ The Paintings at Johnson's new Hall, attract the attention of hundreds of citizens. They are undoubtedly very superior to those heretofore offered in this city, and merit the attention of those who desire to adorn their residences with really fine pictures which will always afford pleasure to contemplate. We hope to see a spirited competition at the sale, which takes place to-morrow morning, at half past ten. Meanwhile there will be a free exhibition.

☞ The Belfast Journal declares that it has not opposed the Maine Law, by argument or in any way, but has only taken the liberty to speak of its practical operation. Very well, we understood its remarks differently and stated our conclusions accordingly. If the Journal is not opposed to the law, as we hope it is not, we shall be glad of it

☞ The editor of the Belfast Journal is making a tour Down East, a favorite resort of his, and from whence he writes very readable letters. He speaks well of the Court at Machias, thus giving assurance of the supposition, that he is courting down there, a pleasant and a gentlemanly amusement, in which his success is wished by all his brethren.

☞ A telegraphic despatch from New Orleans, states that a bark from that city for the West Indies had been fallen in with at sea, and was towed back to the city; 9 of her crew, including the master were dead of yellow fever, and the mate and 3 others were in a helpless condition when found and but for timely assistance must have all perished.

☞ We respect men and women because they are *men* and *women*, we respect not relationships, we respect not *caste*. We are not among those who believe that God made the world for the peculiar use of the "genteel" people.

☞ George R. Graham, Editor of Graham's Magazine, is lecturing for Total Abstinence and the Maine Law in New York. Mr. Graham understands both sides of the question, and, being enlisted for the war, will henceforth be heard and felt on the *right* side.

☞ A drunken sailor named Holmes, was accidently thrown overboard from schooner Minerva of Rockland, on her passage from Boston, 7th inst, and was drowned, although the boat was lowered to save him.

☞ The Steo Union says that six of the hotel keepers in Augusta have been fined $100 each, for selling liquor contrary to the Maine Law.

☞ We are indebted to Hon. Senator J. W. Bradbury, and to Hon Israel Washburn, Jr., for valuable public documents for which they will please accept our thanks.

☞ Launched at Rockland, on the 7th inst, from the yard of Ellis Andrews a schooner of 182 tons, called the Emma Furbush.

☞ After all, the most difficult matter is to walk in humility, and to govern one's self.

☞ Freedom is quite impossible when the youth of a country are devoid of reverence and modesty.

☞ Eaton Clark, Esq., of Fremont has been appointed Postmaster at that place, vice Wm. A. Spear, removed.

☞ A superior ship of 1050 tons was launched from the yard of Thomas Harward, of Balt, on the 6th inst.

☞ Thos. F Meagher sailed for Liverpool in the "America."

New York, Oct. 14.

Secretary Dobbin left the city yesterday evening for Washington.

Secretary Guthrie and family arrived here yesterday, and are staying at the Astor House. Peter G. Washington accompanies Secretary Guthrie.

A despatch from Washington announces that Gen. Dix is soon to be released from his office of Assistant Treasurer.

Gottschalk's Concert last evening was very fully attended. A large number of musical notabilities were present, who were quite enthusiastic in their applause.

An adjourned meeting of the subscribers to the Atlantic and Pacific Railroad, was held yesterday at the Metropolitan Hall. A very large amount of stock was subscribed for. The meeting for the choice of officers is fixed for the 31st of November. Attorney General Chatfield is a prominent candidate for President.

Patents. The following patents were issued during the week ending Oct. 11th,

Gilman Davis of Roxbury, Mass, for improvement in ash pans for locomotive engines.

Joseph Harris, Jr., of Boston, Mass, for improvement in driving circular saws.

D. Renshaw Whitmore of Chicopee Falls, Mass, for improvement in vegetable cutters.

John A. Elder of Westbrook, Me, assignor to John B. Coffin of Portland, Me., for machines for cutting binders' boards.

Plant a tree—train a vine—foster a shrub—deposite a flower seed and nurture its blossom—plant the fence—"slick up the yard"—fix the sidewalk—in short, give heed to the little things that constitute the grand aggregate of public beauty.

Canadian Items.

The St. John News says

"The Municipal Council of St. John, unanimously voted last Monday evening, to take stock in the Massiquoi Railway to the amount of $40,000, and on Tuesday last the Municipal Council of St. Andrews, voted to take stock to the amount of $12,000 in this railway"

The Toronto Leader has the following announcement:

"Mr Roney, Secretary of the Grand Trunk Railway, sails for England, in the steamer of the 15th inst. Upon his arrival Mr. Roney will receive from the Queen the honor of knighthood, for his extraordinary and successful efforts in getting up the Dublin Exhibition, which has done so much honor to Irish industry. Mr. Roney, like Mr. Dargan, is one of the remarkable men of these times, and well deserves the honorable distinction which is about to bestowed upon him."

Montreal and Portland Railway. The *Pays* says of this road.—The arrangements taken by the Grand Trunk Railway Company for the traffic between Montreal and Portland have been made in such a manner as to give satisfaction to everybody The *employees* speak both languages, and rival each other in politeness and activity. These good arrangements are due in a great part to the discernment of Mr Judder, the Chief Superintendent of the Company.

European and North American Railway.

We learn that the Directors of the European and North American Railroad Co, held a meeting in this city on Tuesday last.

The surveys have so far advanced, that a full estimate of the cost of the road can be ascertained this fall. We further learn that the line from Bangor to Augusta by the way of East Vassalboro', is but 62 miles, and that from Bangor to Waterville by the way of East Vassalboro', is but 53 miles, or two miles less than the Newport route. The Unity route is but 41½ miles

From Augusta to Waterville by the way of East Vassalboro', is 20 miles. It is thought that the Somerset road from Augusta to Waterville might go by the way of East Vassalboro', and not increase the cost By adopting this course, it would require but about 26 miles of additional road, from East Vassalboro' to Bangor, to form a complete connection with Waterville and Bangor, independent of the Newport line, This line intersects the Newport line 13 miles this side of Bangor.

We further learn that the land owners on this route propose to trace the right of way as soon as the location is perfected. Mr Reed, the engineer, is now busily at work with a view of closing his surveys in a few weeks

[Port and State of Maine

The Constitutionality of Prohibitory Laws. The opinion of all the Judges of the Supreme Court of the United States on the constitutionality of laws prohibiting the traffic in intoxicating liquors may be found in the 6th Howard's Reports Chief Justice Taney said

"If any State deems the retail and internal traffic in ardent spirits injurious to its citizens, and calculated to produce idleness, vice, and pauperism, I see nothing in the Constitution of the United States to prevent it from regulating and restraining the traffic, or from *prohibiting it altogether, if it thinks proper*"

"Every State, therefore, may regulate its own internal traffic according to its own views of the interest and well being of its citizens" —[5 Howard, 237]

Mr Justice McLean said

"If the sore go articles be injurious to health or the morals of the community, a State may, in the exercise of that great and comprehensive police, power, which lies at the foundation of its prosperity, *prohibit the sale of it*" —[6 Howard, 502]

And in regard to the destruction of property he said.

"The acknowledged police power of a State extends often to the destruction of property — A nuisance may be abated Everything prejudicial to the health or morals of a city may be removed Merchandize from a port where a contagious disease prevails, being liable to communicate disease, may be excluded, and in extreme cases it may be thrown into the sea"

Mr. Justice Catron said

"I admit as inevitable, that if the State has the power of restraint by licenses to one extent, she has the discretionary power to judge of its limit, she may go the length of prohibiting it altogether, if such be its policy."

Ohio Election.

Cincinnati, Oct. 14th,

The majority for Medill for Governor, will be from 30,000 to 40,000 The Democrats will also have a very large majority in the Legislature. The increased democratic majority is attributed to the fact that a large number of Whigs voted the democratic ticket on account of the temperance question. No indications yet of the total strength of the Maine Law vote.

Maine Association of the New Jerusalem Church. The proceedings of the 17th annual meeting of this association, recently held in Portland, have been published The following are the officers for the ensuing year

Rev S F Dike, Bath, President
Marcus Seavey, of Portland, Recording and Corresponding Secretary
Oliver Gerrish, of Portland, Treasurer,
William D Sawtelle, Bath,
Henry B. Perkins, Gardiner,
Isaac S Whitman, Bangor, } Exec Com
Oliver Gerrish, Portland,
J. B Stratton, Winslow.

The National Convention of the N J Church holds its session next year in Portland

From the Plains—Intelligence from Fort Laramie to Sept 15, received by the St Louis Republican, reports that the Indians in large numbers were collected in the vicinity, to receive their presents from the government, and had proved somewhat troublesome At first they refused to sign the treaty as modified by the United States Government, but finally, after much talk, consented to the modifications and received their presents

Accounts from Salt Lake state that a Mr. Bridger, of Fort Bridger, had given out that he intended to supply the Utah Indians with guns and ammunition, in order to exterminate the Mormons. Writs were issued to take Bridger and bring him to Salt Lake, and a company of men were sent for that purpose. When they arrived Bridger had gone. They took possession of all the arms, ammunition, and every thing else, and were still there when the mail passed.

☞ The Washington correspondent of the N. York Journal of Commerce says:

"The Shell war is a matter of much interest here, as may well be supposed. The Administration entertains no doubts that the Hards will be beaten, and that if the Softs do not carry their ticket, they will at least secure the election of the Whig ticket. In the event of the defeat of the Barnburners, the blame will be thrown upon the Hards, and open war will be made upon them. Then the Administration will proceed to remove Judge Bronson from office—for it is now well understood here that he will, following an illustrious example in British history, 'put his opponents to the trouble of turning him out.'"

Loss—In this community, the great Knickerbocker Railroad *smash*. The loser will be fully rewarded by having a few *specimens* of the same at our office.—Belfast Signal.

Character of the Japanese. Travellers tells us that in physical attributes, the Japanese men are much superior to the Chinese, possessing a most remarkable power of enduring toil and exposure. The women, handsome, and well formed, are much superior to the women of other eastern nations. There are more scholars in this empire, than in any other country, and every peasant can at least read. The reciprocal affection and confidence existing between father and son, is without a parallel. A Japanese home is an eminent example of domestic harmony

A most delicate sense of honor pervades this nation, until it becomes almost a vice—Blood alone, can atone for an offered insult A love for fun is a national characteristic, and even the beggars are merry So fond are the ladies of dress, that they display the richness of their wardrobe upon every possible occasion, often changing their entire dress two or three times during a single theatrical representation

Social gatherings, out door and rural amusements, and old fashioned tea parties are their delight, rules for behavior at these latter, are reduced to a system, and must be studied by every young lady at school. Strict etiquette demands that what cannot be eaten, shall be stowed away in the pocket. At grand fetes, every one takes a servant to carry off his share of the remnants. Cleanliness is with these people a virtue Every dwelling has its warm, cold and vapor baths, and their houses are perfect models of order and cleanliness.

In the arts they are, as a nation, well advanced. They work well in the metals and wood—manufacture glass, paper, watches, telescopes, have manufactories of silk and cotton goods, and in general, are farther advanced than any other Oriental country Of music, painting and poetry, they are passionately fond In the sciences they excel, but the invention or construction of any article calculated to save labor, is prohibited by government.

A gentleman who left Guaymas on the 23d of July, says a San Francisco paper, brings the intelligence that the silver mines of Arrizona, the same about which Raussé de Boulbon had a difficulty with the Mexican authorities some time ago have turned out to be of unparalleled richness News had been received at Guaymas, a short time previous to his departure, announcing that immense deposits of silver ore had been discovered at Arrizona yielding a dollar worth of pure silver to three pounds of ore. The news produced great excitement among the inhabitants, and upwards of a thousand men had left Guaymas and Hermosillo for the mines

One of the benefits of the Atlantic and St Lawrence railroad now opened to Canada, is a new supply of building timber of the straightest, clearest, and best quality. The frame for the building for the Normal School is got out in Canada, and a portion of it, perhaps the whole, went through this town a few days ago, on the cars By railroads the farms of Canada are brought to the very neighborhood of Boston, and great value is thus added to their timber, cattle, and produce generally.—Newburyport Union.

There is a sycophantic paragraph going the rounds of the papers about Gov Bigler setting type the other day in a printing office, as if it was a wonderful thing, or there was a great condescension in it We doubt not there are a great many smarter men than Gov Bigler setting type, and guess that he was a poor type sticker, or he would not have been turned out to other pursuits, to bring up finally in the office of a mere Governor of a State, which in these days the most ordinary man can fill It takes something more than an ordinary hand to shine as a typesetter.—Richmond Despatch.

A Valuable Brick.—An ingot of gold weighing 793 ounces, and valued at $16 256 75, was yesterday drawn from the U S Mint, by the agent of Hamden's express, for the firm of Wells, Fargo & Co It is the most valuable ingot of gold ever cast at the mint. In shape and dimensions it resembles a brick, the weight was enough to tire the strongest man.

While occupied with the daily and pressing cares of life it is well to stop this moment for the consideration of health. How to attain this with the greatest certainty and at the least expense of time and money, is a problem which has occupied the finest intellects in every age. The celebrated Graefenberg Family Medicines have attained a wide and just popularity, and they are well worth a trial Call at the Agency, S E. The following is from the principal accountant of the wealthy and highly respectable house of Messrs. Vose & Bro, of this city, and presents one of the MOST WONDERFUL CURES in the annals of medical history

Mr H. G Farrell—Dear Sir Actuated by a sense of gratefulness, I submit the following as an instance of the utility of your great medicine My child, three years old, was suddenly attacked with a terrible disease which in less than six hours prostrated it to total helplessness. The limbs became so rigid that not a joint could be bent, the flesh turned black and cold and entirely deprived of feeling, the eyes fixed, partially closed and all gether blind, following this was deafness to all sounds the spine became contracted, and so curved that when lying on its back the head and heels only touched Indeed the child presented every appearance of being dead Immediately on the attack the family physician was called in and for three weeks he laboured to restore it to feeling but all in vain, although it was blistered a dozen times, and various rubefacient ointments applied A consultation of physicians was then held, but to no purpose the case was then brought before the Medical Society, but nothing could be suggested which had not already been done, and the doctor then told me he could do nothing more We then commenced applying your Liniment freely over the entire length of the spine and you may imagine a parent's joy, when, after a few applications, returning animation was apparent, and it rapidly recovered with the exception of the sight, which did not become perfect for near a month The child is now healthy and robust as can be Five other cases of the same kind occurred previously in my neighborhood, all of which died, when there is no doubt if your Liniment had been used they would have recovered

LOOK OUT FOR COUNTERFEITS,

The public are cautioned against another counterfeit, which has lately made its appearance, called W H Farrell's Arabian Liniment the most dangerous of all the counterfeits because in having the name of Farrell many will buy it in good faith without the knowledge that a counterfeit exists, and it may perhaps only discover their error when the serious mischief has wrought its evil effects

The genuine article is manufactured only by H G Farrell, sole inventor and proprietor, and wholesale druggist, No 17 Main Street Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H G before Farrell's Name—H G FARRELL'S—and his signature on the wrappers, all others are counterfeits

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor Also by R F Kimball, Oldtown French & Hamilton, Dexter Geo. Parcher, Ellsworth P O Flaherty, Hallowell And by regularly authorized agents throughout the United States

☞Price 25 and 50 cents, and $1 per bottle

John Bunyan's Immortal Allegory

PROBABLY no book save the Bible has been so extensively read as Bunyan's immortal allegory.

The Pilgrim's Progress.

It has been translated into nearly all the different languages of Christendom and been perused with delight and high fervor by all nations. A talent her attracting to every Bible Bureau of Illustration in the north Mode Cuts. The exquisite *Steel Engraving*. Put to the mind of the more learned and an American clergyman are weaned to the *only perfect and conception* of it in most of work.

The novel and sublime idea of embodying the *entire story*, and transferring the same to a *single picture* showing the wanderings of Christian from the City of Destruction to the Celestial City presenting at one view to the eye the varied scenes through which he passed, originated with Rev DANIEL WIGHT of Massachusetts. His original and beautiful conception was received in most elegant design by HAYNATT FILLINGS, and in this form JOSEPH ANDREWS the distinguished historical engraver has produced after four years of labor a picture which will take rank among the most superb and elaborate productions of human genius taste and skill.

The picture is now ready and will be offered in the Bookstore of the Publishers and by Agents duly appointed by the Publishers.

Green Mountain Vegetable CEMENT.

BROKEN China Glass, Earthen Ware and Fancy Articles of every description repaired and mended making it as strong as before broken without injuring its appearance.

This Cement which has been proved to be of great strength will be found particularly useful in every family, the simple manner of its application is done a recommendation. The adhesive property which it contains is so wonderful that many things will rather break in a fresh place than where they have been mended with it. The variety of purposes for which it may be used are so numerous that it would be difficult to recite them. Its success in mending Glass China &c is extraordinary, no ordinary degree of heat affecting it, and as the joints are scarcely perceptible articles of this kind may be made useful for years, which otherwise would have been cast away.

Notice to Operators.

DO YOU WANT A PERMIT?

THE subscriber wishes to permit Township No TR 2, or Bancroft Plantation situated at the junction of the Mattawamkeag and Baskahegan rivers (which run 16 miles in the town with several navigable brooks.) As the township is mostly lotted and all will be soon great and small operators can both be accommodated. In view of the quantity and quality of the timber, which is mostly spruce, the favorable nature of the land, and the cheapness and certainty of arriving early at the Booms with whole length stuff, the subscriber after personal exploration does not hesitate to recommend this as one of the best chances to hail Spruce on the Penobscot waters. THE GREATEST MEDICAL DISCOVERY OF THE AGE!

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common pimple—He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a sore or sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will effectually cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure ringworm of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles warranted to cure the worst case of ringworm.

Five or three bottles are warranted to cure the most desperate cases of rheumatism.

Three or four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have never tried it, the wonderful medicinal virtues of this common weed, growing on the pastures and stony old stone walls should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are no humbugs, and humbugs talk about it, selling some other, but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old, to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrhal dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings. But you must not be alarmed—they always disappear up from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone you will find yourself like a new person. I heard some of the most extraordinary encomiums of it that ever man listened to.

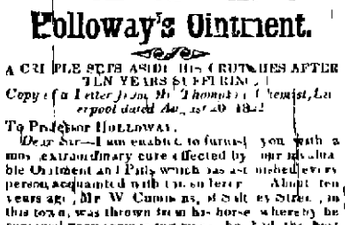
NEVER FAILING REMEDY



Holloway's Ointment.

A CHIPPLE SET ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING.

Copy of a Letter from Mr Thomas, Chemist, Liverpool dated Aug. 1st 1849.

To Professor HOLLOWAY.

Dear Sir—I am unable to express to you with any extraordinary effected by your invaluable Ointment and Pills which has so astonished every person acquainted with the letter. About ten years ago, Mr W. Cummins, of Salt ey Street, in this town, was thrown from his horse whereby he received very serious injuries, he had the best medical advice at the time, and was liberated an inmate of different infirmaries, till he grew worse, and at length a malignant running ulcer settled in his hip which so completely crippled him that he could not move without crutches for nearly 10 years, recently he began to use your Ointment and Pills, which have now healed the wound, strengthened his limbs and enabled him to dispense with his crutches, so that he can walk with the greatest ease and which renewed health and vigor. (Signed) J. PHILLIPS.

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE, WHEN ALL ELSE HAD FAILED.

Copy of a Letter from Mr Hird Draper, of Crosby, near Gainsbro', dated March 1st 1852.

To Professor HOLLOWAY.

Sir—Some time since, one of my children was afflicted with dreadful eruptions over the body and limbs. I obtained the advice of several eminent Surgeons and Physicians, by whom the case was considered hopeless. At length I tried your Ointment and Pills, and without exaggeration, the effect was miraculous, for by persevering in their use all the eruption so quickly disappeared, and the child was restored to perfect health.

I previously lost a child from a similar complaint and I truly believe, had I then the same adopted your medicines she would have been saved also. I shall be happy to testify the truth of this to any enquirer. (Signed) J. HIRD Draper.

CERTAIN REMEDY FOR SCORBUTIC HUMOURS—AND AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE OF A BAD LEG.

Copy of a Letter from Messrs Walker and Co., Chemist Bath.

To Professor HOLLOWAY.

Dear Sir—Among the numerous cures effected by the use of your valuable medicines in this neighborhood, we may mention that an old lady living in the village of Preston, about five miles from this city, had ulcerated wounds in her leg for many years, and latterly these increased to such an alarming extent as to defy all the usual remedies, her health rapidly giving way under the suffering she endured. In this distressing condition she had recourse to your Ointment and Pills, and by the assistance of her friends, was enabled to persevere, when she, at last, recovered a perfect cure. We have ourselves been greatly astonished at this effect upon so old a person, she being above 70 years of age. We shall be happy to satisfy any enquiries as to the authenticity of this really wonderful case, either personally or by letter.

A private in the Bath Police Force, also, has been perfectly cured of an old scorbutic affection in the face, after all other means had failed. He states that it was entirely by the use of your Ointment, and speaks highly in its praise.

We remain dear Sir, Yours faithfully,

April 5, 1852. (Signed) WALKER & CO.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Corns (Soft)	Sore Nipples
Bad Breasts	Cancers	Piles
Burns	Contracted and Stiff Joints	Skin-diseases
Bunions	Elephantiasis	Stings
Bite of Mosquitoes and Sand Flies	Fistulas	Sore Throats
Coco-Bay	Gout	Tumors
Chilblains	Glandular Swelling	Ulcers
Chiego foot	Lumbago	Worms
Chapped Hands	Piles	Wounds
	Rheumatism	Sewd

FAMILY and Fancy [illegible] in various styles [illegible] Also, other varieties [illegible] Fine [illegible]

Had its origin in the Forests.

THE RED MAN, endowed by Nature, has superior skill in the art of compounding healing and soothing medicines. This fact has been acknowledged by those who have used

Dr. Hart's Genuine Indian Salve.

Every mother with children, and all heads of families should keep a box in the house and have it handy in case of accident.

Indian Salve cures Ulcers or Fever Sores.

Mr Ezekiel Ward of Gorham, Me. who for thirty years has been troubled with a very bad ulcer or Fever Sore upon his ancle, which has at times been so painful and so virulent that the skin would crack open, and the pain became so intolerable that he could not rest day or night, but by the use of the Indian Salve, other remedies failed to relieve, has recovered and is able to labor upon his farm with perfect ease and comfort.

Mr Andrew Hodgdon, of Dalmouth, who has used the Indian Salve for a very bad scorbutic sore, says it gave him more comfort than all the other lots he had ever applied. It relieves the inflammation, subdues the pain, and enables him to attend to his business as usual.

Indian Salve cures Piles.

A man in Boston, was entirely cured of a severe attack of this painful disease, by a few applications of this wonderful Salve. Another Gentleman in Portland, says it gave him instant relief in a case of Piles of long standing.

Indian Salve cures Scald Head.

A boy in Lowell was cured of scald Head, by the Indian Salve after many other well tried remedies had failed. Another in Saco was cured of the same malady after four bottles of the Salve, and many other remedies had been tried, with no good results. A child in Portland was cured of a very bad case of Scald Head by using one box.

Indian Salve cures Poisoned Limbs.

Two boys in Scarborough were cured of bad sores on their legs occasioned by being severely poisoned.

Indian Salve cures Burns.

A gentleman in Portland had his hand very severely burnt with phosphorus, and after trying many remedies with no good effect, was entirely cured with one box of Indian Salve. In cases of Burns, the Indian Salve is applied immediately, it draws out the fire and prevents blistering, and heals at once.

Indian Salve cures Cuts and Bruises.

Mr E. G. Osgood had his thumb nail torn out by the roots, and says on applying the Indian Salve the pain subsided and healing took place at once.

Indian salve is the best article in the World for boils.

Mr D. C. Plummer, 14 and 15 Market Square, Portland, used this excellent Salve for Boils, and says it subdued inflammations in a superior manner to any Salve he ever used.—Mr Joseph Maines used it for a very painful Boil, and says the Indian remedy cured it in a few days.—Prof. Cummings, of Portland, used this celebrated Salve for a bad sore on his wrist, and says it is a remarkable remedy. He says he gave it one fair trial and it cured.

Indian Salve is highly spoken of by all who have used it.

In no case does it fail to subdue inflammation and pain, and restore to perfect soundness the most angry looking wound.

ANOTHER SCIENTIFIC WONDER!

GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S

THE TRUE

DIGESTIVE FLUID,

OR

CASTRIC FLUID.

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D. Philadelphia, Pa.

DIGESTION is the true meaning of word PEPSIN. It is the active element, or Great Digesting Principle of the Gastric Juice—the efficient of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive mucous coat of the Ox, thus forming a TRUE DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers and furnishing a complete and perfect substitute for it.

This is NATURE'S OWN REMEDY for an unhealthy Stomach. No art of man can equal its curative powers. It contains no ALCOHOL, BITTERS, ACIDS or NAUSEOUS DRUGS. It is extremely agreeable to the taste, and may be taken by the most feeble invalids without an hour's hunger, without distress. Beware of DRUGGED IMITATIONS. Pepsin NOT A DRUG.

One teaspoonful of Pepsin infused in water, will digest or dissolve, Five Pounds of Boiled Beef in about two hours, out of the Stomach.

SCIENTIFIC EVIDENCE.

☞ The Scientific Evidence upon which this remedy is based is the highest Chemical and Remarkable. Call on the Agent and get a Descriptive Circular, gratis, giving a large Amount of Scientific Evidence, from Liebig's Animal Chemistry, Dr Combe's Physiology of Digestion, Dr Pereira on Food and Diet, Dr Dunglison, Professor of New York University, Prof Draper's Physiology, Prof Silliman, of Yale College, Dr Carpenter's Physiology, &c., together with reports of cures from all parts of the United States.

PEPSIN FLUID AND POWDER.

Dr Houghton's Pepsin is prepared in Powder and in Fluid form—in Fluid in Pint bottles at the rate of Physicians. The Powder will be sent by Mail free of Postage for one Dollar, sent to Dr Houghton, Philadelphia.

☞ OBSERVE THIS.—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D. sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON

No. 22 State Street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U. S. Patent Office under the Act of 1837) determined to present advantages, in applying for patents superior to those offered by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of usually as paid back by others) will be required by him in cases of Uncontested patent, and the money will be returned if the patent is not granted within thirty days after the rejection. Caveats, Assignments, and all necessary papers, prepared, and advice rendered on legal and scientific points relating to inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, and extensive library, the patent and mechanical works and correct accounts of patents granted in this and other countries, besides saving a journey to Washington, the usual great delay there as well as all trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. G. EDDY,

Solicitor of Patents.

During the time I occupied the Office of Commissioner of Patents, R. G. Eddy, Esq. of Boston, had business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

(PATENT OFFICE.)

R. G. EDDY, Esq., Boston, Mass.

Sir—Your facilities for the prosecution of any business connected with this office, are equal to those of any other agent. I am very respectfully, yours, &c.,

No. 2 White " in oil 8 " " lb
No. 3 White " in oil 7 " " lb
Dry White Zinc 6 cents per lb
Brown and Red ground in oil 8½ cents per lb

These WHITE ZINC PAINTS, equal weight covers, according to surface from 40 to 100 per cent more surface than any other paint, retains its whiteness, brilliancy and protective qualities for years, is free from the poisons so dangerous to the health to painters and remains of newly painted rooms, and resists the sulphurous gases and foul air of ships and warehouses on which paint to repel tarnish or become yellow. Ground in varnish forms a beautiful porcelain finish. The French Government has adopted Zinc Paint for all houses.

The BROWN AND BLACK ZINC PAINTS form perfectly a solid metallic coating on wood or iron, and are admirable for fire proof purposes. They are unrivalled for rail cars, depots, locomotives, for marine uses they resist the corrosion of salt water and weather so far all other paints.

The Zinc and Fire Proof Paints are sold at wholesale and retail at the manufacturer's prices, by

Self Acquired Fame!

DR. JOHNSON'S

AMERICAN ANODYNE LINIMENT.

For Internal and External Use.

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper publicity, has yet acquired a higher and more extended popularity than any other similar compound in the world. It is entirely of vegetable extract, perfectly safe to be administered even to the most delicate child and alike astonishing and satisfactory in its effects upon man or beast. So numerous and well nigh unanswerable are the testimonials to its wonderful and universal efficacy, that we say, Give it a fair trial, and we promise you a radical cure of Coughs, Colds, Asthma, Bronchitis, Whooping Cough, Influenza, Spitting of Blood, and all Lung Complaints, Chronic Diarrhœa, and Dysentery, in all of which cases it should be used internally. The effects of its external application in cases of Rheumatism, Spinal Diseases, Sprains, Chapped Hands, Bruises, Burns, and all condit
